**REASONS for ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The closest prior art, Japanese Patent Application No. 11-163705 (disclosed by Applicants), discloses most of the limitations of the claims, but fails to show at least a mount electrode and an electrode for wire-bonding disposed at diagonal position of an opening, and a switching element which is arranged in such a manner as to block the opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Japanese Patent Application No. 54-80094, Brown et al., Nagano and Pace (illustrate optocoupled devices).
